The free application for 2022 Summer Pre-College is live at [www.marist.edu/precollege](http://www.marist.edu/precollege)! A complete application requires a personal essay, high school transcript, and recommendation form. Applications are reviewed on a rolling, space available basis per program.

In addition, our faculty are planning several Summer Pre-College Virtual Information Sessions for students to learn about the programs, what our in-person and virtual pre-college experiences entail, and how to apply. The dates and registration links for these sessions will be published on the Pre-College website for students to select the session that best fits their schedule.
