

## District Network Acceptable Use Policy *Student Agreement*

Dear Parent or Guardian,

We are pleased to offer students in the Atlantic City Schools access to the District computer network for electronic mail and Internet access. To obtain e-mail and Internet access, all students must obtain signed parental permission and return this form to the school.

Please be aware that students could encounter material that may contain items that are illegal, defamatory, inaccurate or potentially offensive. Our intent is to make Internet access available to further educational goals and objectives. We believe the benefits from Internet access far exceed any disadvantages. Atlantic City Schools are also in compliance with the laws and regulations under the Child Internet Protection Act (CIPA). Access is a privilege, not a right. Access assumes ethical and responsible usage as described below. Therefore, parents and guardians should set the standards that their children should follow when using District resources and equipment. To that end, the Atlantic City Schools will support and respect each family's right to decide whether or not to apply for access.

### **District Internet and E-Mail Rights and Responsibilities**

Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. The network is provided for students to conduct research and communicate with others. Access to network services is given to students who agree to act in a considerate and responsible manner.

Individual users of the District computer networks are responsible for their behavior and communications over those networks. Users must comply with District standards and honor the agreements they have signed. Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on District servers would always be private.

Within reason, freedom of speech and access to information will be honored. During school, teachers of younger students will guide students toward appropriate materials.
